

# DIESEL SKIDAIR ENAIRGY SERIES

Diesel skid-mounted compressors - air and electrical power

The SKIDAIR range of compressors is the **narrowest** of Guernet's standalone compressors. It is ideal for small spaces. It is provided with a 50L air tank, and 4 **quick-access outlets** on the side for easy connection of your 2 LV and 2 HGV pneumatic tools. Power your electrical equipment through its **power generator** available from **2kVA single-phase** to **7kVA three-phase** with 2 sockets.

## EQUIPMENT

- Electric starter and alternator
- Battery kit including battery, cables and terminal lugs
- Exhaust hose with floor feedthru
- Setting to idling speed
- FRL provided with 4 air outlets

Model shown SKIDAIR3LOG6M

## FEATURES

**SETTING TO IDLING SPEED**

**CYLINDER**

cast iron for the entire range

- **TANKS**  
CE approved
- **12 VOLT TIME COUNTER**

## OPTIONAL

- **OFFSET STARTER BOX**
- **12 VOLT AUTOMATIC DRAIN**
- **EMERGENCY STOP**
- **PROTECTION DIFFERENTIAL**  
on single-phase models

## DIESEL SKIDAIR ENAIRGY SERIES

Diesel skid-mounted compressors - air and electrical power

| MODEL           | CYL. / STAGE | PRESSURE (BAR) | POWER (HP) | AIR DISPLACEMENT (L/MIN-M <sup>3</sup> /H) | ENGINE (type) | DASHPOT | TANK (L) | GENERATOR (kVA)          | DIMENSIONS (L x W x H) | WEIGHT (KG) |
|-----------------|--------------|----------------|------------|--------------------------------------------|---------------|---------|----------|--------------------------|------------------------|-------------|
| SKID'AIR3 LOG   | 2/2          | 12             | 7,5 - 10,1 | 1050 / 63                                  | KD15-440      | ✓       | 50       | 2,6 kva mono             | 1300 x                 | 220         |
| SKID'AIR3 LOG6M | 2/2          | 12             | 7,5 - 10,1 | 1050 / 63                                  | KD15-440      | ✓       | 50       | 6 kva mono               | 1300 x 550 x 1050      | 230         |
| SKID'AIR3 LOG7T | 2/2          | 12             | 7,5 - 10,1 | 1050 / 63                                  | KD15-440      | ✓       | 50       | 7 kva tri / 2,4 kva mono | 1300 x                 | 240         |

## ADOPT THE SKID-MOUNTED VERSION

**Transportable and practical**, discover a new way of working by generating your compressed air **wherever you need it**. The **skid-mounted** compressor can be **easily installed in areas where space is a premium** to meet the needs of a greater number of applications. The large-capacity 7.3L petrol tank provides a long standalone capability.

**Electrical power generator** provided with 2 electrical sockets (a single-phase socket and a three-phase socket on three-phase generators). Use of both power sources simultaneously on this series.

**Battery kit:** provided with a battery, cables and terminal lugs for powering the electric starter supplied as standard.

**4 fitted up outputs:** FRL with 2 air outlets for light vehicles and 2 air outlets for heavy-goods vehicles.

**Air outlets shown from left to right:** a direct LV air outlet to the left of the pressure gauge, and a direct HGV air outlet under the pressure gauge at the bottom of the illustration. A regulated and lubricated LV air outlet in the centre and a regulated and lubricated HGV air outlet to the right.

**Electric starter as standard:** this quality product has been designed for easy, practical use and working comfort.

DIFFERENTIAL NOTE: We recommend you choose the differential opt on. This option is not mandatory but protects individuals in the event of electrical leakage on the compressor when using electrical appliances. This equipment may be required by an inspection agency if you use portable electrical appliances at a distance of more than one metre from the power source.
