

PETROL SKIDAIR SERIES

Petrol skid-mounted compressors

Compact and lightweight, the SKID'AIR series of compressors are fully standalone thanks to their **50L** air supply. Fitted with a Honda engine, they can supply air from 40 m³/h to 67 m³/h, in the **smallest possible space**. An appreciable advantage when compressor space is restricted. A range specially provided with metal guards for **easy loading** and shock protection.

EQUIPMENT

- Electric starter and alternator
- Battery kit including battery, cables and terminal lugs
- FRL

Models shown from top to bottom SKIDAIRES1 and SKIDAIRES2

FEATURES

SETTING TO IDLING SPEED

CYLINDER
cast iron for the entire range

ADOPT THE SKID-MOUNTED VERSION

Transportable and **practical**, discover a new way of working by generating your compressed air **wherever you need it**. The **skid-mounted** compressor can be **easily installed in areas where space is a premium** to meet the needs of a greater number of applications. The large-capacity 7.3L petrol tank provides a long standalone capability.

50L air tank provided with all safety devices: pressure gauge, safety valve, drain valve, air outlet valve and plugs.

Battery kit including a battery, cables and terminal lugs for powering the electric starter supplied as standard.

Electric starter as standard: this quality product has been designed for easy, practical use and working comfort.
